

A Note from Dr. Jack Baldwin, Chairman of BHMI

Greetings from BHMI. I want to thank everyone for helping us celebrate our 35 year anniversary and making it a memorable success! We are pleased to send you the most recent issue of BHMI's **PaymentsNOW™** Newsletter. It is an exciting time at BHMI and in the payments industry. This newsletter summarizes the most current news from BHMI. I also invite you to visit us anytime at www.bhmi.com.

Press Release: Payshop Goes Live with BHMI's Concourse, Powering Seamless Back Office Transaction Processing

BHMI is pleased to announce that Payshop has launched its implementation of Concourse. The deployment will bolster the company's back office processing for all electronic payment transactions going through its network, creating a unified, omni-channel environment that offers a seamless support system for all the payment services it provides. Payshop serves clients across Europe through its wide array of payment services.

Webinar: How to Transform Your Payments Back Office with Concourse

No longer on the horizon, real-time payments are here. However, many companies are relying on legacy back office systems that are unequipped to support the requirements for real-time payments. In this webinar, BHMI discusses how the Concourse Financial Software Suite is enabling companies to meet the real-time back office challenge.

Podcast: Faster? Or Not Fast Enough? Payments Progress in 2021 (So Far)

BHMI's Casey Scheer recently spoke with *Bankadelic* host Lou Carlozo about real-time payments, back office challenges and payments modernization. They also discussed some of the biggest challenges and bright spots over the last year, along with some of the solutions for getting around the "tollgates" for faster payment adoption. Listen to the episode now!

Article: A Faster Move Towards Faster Payments Modernization

In *Transaction Directory's Predictions 2021 series*, BHMI looks at some of the trends that will drive digital and faster payments this year and how payments modernization is ultimately tied to back-office processing. No matter how fast the front-end experience, all payments must still be processed in the back-office – which determines the true speed of faster payments.

Podcast: Modernizing Back-Office Processing in a Real-Time World

Adopting real-time payments isn't as hard for financial institutions as was once thought. However, the biggest challenge is modernizing legacy back-office environments to keep up with real-time front-end systems. *PaymentsJournal* spoke with Jack Baldwin, to discuss how the modernization of back-office processing can be achieved with the Concourse Financial Software Suite.
