## BHMI Celebrates 30 Years of Business Success

*In a fun video, BHMI team members share some fond memories from the last 30 years.*

Omaha, NE — September 7, 2016 — Baldwin Hackett & Meeks, Inc. (BHMI), a leading provider of enterprise software applications, is celebrating 30 years of business success. During the past three decades, the company has built a proven reputation across a wide range of industries, including financial services, telecommunications, transportation, government, education, and health care.

The company was founded in 1986 by Chairman, Dr. Jack Baldwin; President, Dr. Lynne Baldwin; and SVP of Software Development, Mr. Michael Meeks. Throughout its history, the company has maintained the same mission it held in the beginning – develop quality software that produces real value for clients. BHMI has thrived over the past 30 years due to the longevity of its staff members, commitment to quality, and unparalleled customer service.

To celebrate this corporate milestone, BHMI created an entertaining video starring the company's corporate mascot – MAX the bulldog. On the video, MAX interviews the corporate founders and some BHMI team members. To watch this video, go to <https://youtu.be/uTc5ocXWef0>.

### **ABOUT BALDWIN HACKETT & MEEKS, INC.**
