BHMI Launches Concourse – Fees & Commissions EXPLAINED Video

This animated video shows how Concourse – Fees & Commissions makes it easy for companies to configure and modify any type of fee, commission, or pricing structure for electronic payment transactions.

Omaha, NE — September 12, 2017 — Baldwin Hackett & Meeks, Inc. (BHMI), a leading provider of enterprise software applications, has launched the third video in a new Concourse EXPLAINED animated video series.

This video explains how Concourse – Fees & Commissions makes it easy for companies to configure and modify any type of fee, commission, or pricing structure for electronic payment transactions. This includes interchange fees, gateway fees, processing fees, service fees, recurring fees, commissions, and much more.

By leveraging the continuous processing architecture and configurable rules engine in Concourse – Fees & Commissions, companies can:

- Automatically load data from all transaction sources
- Configure any type of fee and commission
- Leverage any transaction data element in calculations
- Honor unique terms within each client contract
- Support an unlimited number of business relationships
- Establish unique billing periods for each client

- Easily update or modify rate structures
- Initiate trial runs to analyze impacts of future fee schedules
- View real-time transaction and fee activity
- Provide online summaries to clients

BHMI is inviting people to watch this short and entertaining video to learn more about Concourse – Fees & Commissions. To watch this video, [click here](#).

ABOUT BALDWIN HACKETT & MEEKS, INC.

Baldwin Hackett & Meeks, Inc. (BHMI) is an elite group of technologists who have been creating primary business applications since 1986. From small startups to Fortune 500 companies, BHMI clients have one thing in common – they trust BHMI to develop software that ensures the successful operation of their businesses. This is because BHMI’s core competency is creating enterprise software applications that are continuously available, highly scalable, and undeniably reliable. For more than three decades, BHMI has developed and supported hundreds of applications across a wide range of industries. This includes both custom applications and software products. BHMI leveraged this expertise to create one of the world’s most flexible and powerful back office solutions in the electronic payments industry – the Concourse Financial Software Suite.
