**BHMI Launches Concourse – Reconciliation EXPLAINED Video**

*This animated video shows how Concourse – Reconciliation automates the transaction matching and reconciliation process for electronic payment transactions.*

Omaha, NE — January 8, 2018 — Baldwin Hackett & Meeks, Inc. (BHMI), a leading provider of enterprise software applications, has launched the fifth video in a new Concourse EXPLAINED animated video series.

This video explains how Concourse – Reconciliation automates the transaction matching and reconciliation process for electronic payment transactions.

By leveraging the continuous processing architecture and configurable rules engine in Concourse – Reconciliation, companies can:

- Automatically load data from all transaction sources
- Link data and create complete transaction life cycles
- Reconcile transactions from two or more sources
- Perform transaction and balancing reconciliation
- Configure tolerance levels for equivalency checks
- Assign reconciliation plans based on transaction attributes
- Verify reconciliation status in real-time

- Perform queries on reconciliation results
- Easily identify the reason for a discrepancy
- Quickly resolve exception items

BHMI is inviting people to watch this short and entertaining video to learn more about Concourse – Reconciliation. To watch this video, [click here](#).
