BHMI Wins "Best Real-time Payments Solution" At 2020 PayTech Awards

BHMI's Concourse Financial Software Suite® recognized as top solution for delivering powerful, agile real-time payments results for clients.

OMAHA, Neb. – Sept. 10, 2020 BHMI, a leading provider of enterprise software applications and creator of the Concourse Financial Software Suite®, received top honors at the PayTech Awards 2020 digital ceremony, winning the "Excellence in Tech Award" for "Best Real-Time Payments Solution."

Produced and hosted by FinTech Futures, the awards program celebrates innovation in the payments industry worldwide, recognizing the leaders and solutions that help drive it.

BHMI's Concourse Financial Software Suite® was selected by this year's judges as the top real-time payments solution, recognized for its capabilities to successfully support the real-time payments infrastructures of BHMI clients.

"It is an honor for all of us at BHMI to have Concourse selected as the Best Real-Time Payments Solution and I want to thank Fintech Futures and the judges for their recognition," said Jack Baldwin, CEO of BHMI. "Early on, we made the strategic decision that our back-office solution would be based on a continuous processing, rules-based architecture and this award validates that decision. Congratulations to all of this year's winners – we certainly find ourselves in very good company."

Concourse is ideally suited for today's changing world of payments. Its rules engine provides continuous back office processing for all types of electronic payment transactions. This enables financial settlement to occur in near real-time, allowing client back offices to keep up with the growing real-time environments of their front-end systems, including support for various, evolving payment schemes like P2P payments.

"Congratulations to BHMI for their well-deserved win in the Best Real-Time Payments Solution category of PayTech Awards 2020," said Tanya Andreasyan, Managing Director and Editor-in-Chief at FinTech Futures, and a judge for this year's program.

"The judging panel was impressed with the solution and the company behind it, scoring BHMI highly on the delivery of successful, high-impact business outcomes for Concourse users. Well done, BHMI!"
