BHMI Unveils New Website, Enhancing Visitor Experience

OMAHA, Neb. – Oct. 29, 2020 BHMI, a leading provider of payments software and creator of the Concourse Financial Software Suite™, today unveiled its newly redesigned website at <https://www.bhmi.com>. The updated site offers visitors a streamlined, user-friendly experience, showcasing BHMI's proven, innovative payments software solutions that can meet the demands and needs of today's evolving industry.

The new design provides a clear interface and functionality, delivering a robust experience for visitors. The website offers fast, easy access to detailed information about the BHMI and its solutions, highlighting the latest company news and articles. Additionally, the site features on-demand access to specialized resources like webinars, podcasts and white papers covering some of today's top payments industry concerns and trends and showcasing BHMI's Concourse solutions.

"The demand for powerful, flexible payments solutions is stronger than ever, and companies need access to information on the right tools and products that's fast, clear and intuitive," said Casey Scheer, Director of Marketing & Sales for BHMI. "BHMI's new website will allow us to offer a better, user-friendly experience for all our visitors, highlight our solutions and provide payments organizations with the tools they need to stay competitive and succeed."

To experience BHMI's new website, visit www.bhmi.com today.

About BHMI

BHMI is a leading provider of product-based software solutions focused on the back-office processing of electronic payment transactions. The company is best known as the creator of the Concourse Financial Software Suite™ – a unique integrated collection of back-office products allowing companies to quickly and easily adapt to the rapidly changing world of payments. Concourse is a cohesive and integrated package, including settlement, reconciliation, fees processing, and disputes workflow management, that reduces the cost and complexity of back-office processing. Concourse's continuous processing, near real-time architecture and powerful rules engine is ideally suited for new payment initiatives like P2P and enables companies to perform back-office processing for any type of payment transaction. To learn how your company can benefit from the power and flexibility of Concourse, please visit www.bhmi.com.
