Everlink Upgrades to Latest Version of BHMI's Concourse Financial Software Suite®

OMAHA, Neb. – Jan. 28, 2021 BHMI, a leading provider of payments software and creator of the Concourse Financial Software Suite®, announced that Everlink Payment Services Inc. (Everlink), a leading provider of payments solutions and services for credit unions, banks, and small/medium enterprises (SMEs) throughout Canada, will be migrating to the latest version of Concourse to further bolster its payment processing functions. BHMI has been a partner with Everlink since 2003, supporting the company's back-office payment needs.

The upgrade to the latest release of Concourse will replace Everlink's existing settlement systems, consolidating to a single, highly efficient and functionally rich system for all back-end processing. This major uplift will include the following Concourse modules:

- Concourse – Core
- Concourse – Extended Settlement
- Concourse – Reconciliation
- Concourse – Fees & Commissions
- Concourse – Disputes

Concourse will seamlessly integrate with other current Everlink systems, continuously pulling and loading data as it becomes available to immediately perform back-end processing. Furthermore, Concourse's highly configurable reporting infrastructure will allow both Everlink and its clients to access data securely without impacting back-end operations, providing them with detailed reporting functions on-demand.

"As our business volume and complexity continues to increase dramatically, together with the inexorable evolution toward digital payments across Canada, it is critical that Everlink remains current and compliant, offering the latest and most functionally relevant capabilities," said Mark Ripplinger, President and CEO of Everlink. "BHMI's Concourse solution provides us the flexibility and functionality we require to meet the needs of our clients and the rapidly changing demands of the payments industry."

"We are pleased to continue our partnership and support of Everlink with the latest release of Concourse," said Lynne Baldwin, President of BHMI. "We strive to make Concourse the best back office payments solution available. Our latest version is the result of the continual process of improvement, reflecting our commitment to provide our customers with a superior software experience."
