A Note from Dr. Jack Baldwin, Chairman of BHMI

Hello fellow payment enthusiasts. These are exciting times in the payments industry and the race is on for payments organizations to offer instant payments. However, most back office ecosystems are a bottleneck because legacy, batch systems are not designed for today's real-time payments world. As a leading provider of real-time back office software solutions, BHMI is helping companies win the race.

Webinar: Is Your Company Operationally Ready for Real-Time Payments?

Though real-time payment volumes are growing substantially, most financial service companies are still not ready to fully leverage real-time payments because true operational readiness requires front-end and back office systems that process payments instantaneously. During this webinar, The Mercator Advisory Group, The Clearing House, and BHMI will provide valuable advice on how financial organizations can become operationally ready for real-time payments.
